

INFORMATION PAGE

This page sets out information which is referred to and forms part of the TELECOMMUNICATIONS LICENSE AGREEMENT made as of the 17th day of May, 2010 between bcIMC REALTY CORPORATION as Licensor and ATRIA NETWORKS LP., as Licensee.

The information is as follows:

Building: the office building municipally known as "19 Allstate Parkway" having the municipal address of 19 Allstate Parkway, in the City of Markham, and the Province of Ontario.

Floor Area of Deemed Area: The floor area of the Deemed Area is estimated to be 4 square feet,. The exact measurement of the Deemed Area may be verified by an architect or surveyor employed by the Licensor for that purpose and upon verification, an adjustment of the License Fee and the floor area will be made retroactively to the Commencement Date. Regardless of the actual floor area of the Deemed Area, the Deemed Area will be considered to have a floor area of at least fifty (50) square feet

Commencement Date: the 1st day of June 2010.

Electric Utilities: The Licensee shall pay to the Licensor in annual instalments the amount of \$NIL plus GST., as an estimate of the costs of electrical consumption costs attributed to the operation of the Communications Equipment. Electric Utility payments are subject to adjustments from time to time as provided for in Section 6.

License Fee: the annual sum of Nine Hundred dollars (\$900.00) payable in annually in advance on the Commencement Date and the anniversary of the Commencement Date thereafter.

G.S.T. Number: 897727657RT

EXHIBIT "I"

RECOVERABLE COSTS

The Recoverable Costs are the costs of:

- (a) architectural, mechanical and electrical consulting fees to provide or review architectural, electrical and heating, ventilating and air-conditioning design for construction of additional main terminal room or point of presence space (Equipment Room space), riser rooms and other areas requiring reconstruction to accommodate the installation of the Licensee's Equipment;
- (b) mechanical engineering and construction to provide any additional cooling for anticipated loads to accommodate the Licensee's requirements;
- (c) electrical engineering and construction to provide sufficient power distribution to support the power loads anticipated for the Licensee's Equipment, including any connection to any emergency generator power grid that may be made available using a transfer switch;
- (d) the installation of any secured entry devices or other mechanical or electronic security devices that may be installed to satisfy the requirements of the Licensee;
- (e) construction for additional space or reconstruction or modification of existing space to accommodate the Licensee and modifying, enlarging or enhancing any telecommunication related facilities that must be made to accommodate the requirements of the Licensee including the reviewing of plans, specifications and working drawing and the monitoring of the performance of work and the obtaining of professional advice from engineers and technical experts;
- (f) any other reasonable costs of facilitating the initial set up of the Licensee's operations within the Building; and
- (g) reviewing plans, specifications and working drawings and monitoring performance of work as contemplated by Section 7(a).
