(b) The Licensee recognizes that the Licenser may desire to provide access to existing and future telecommunications service providers of Property tenants, and the Licenser may deem it desirable to achieve this objective through shared usage of some or all of the Property Communications Spaces. The Licenser acknowledges that the Licensee may be bound by service agreements with clients located in the Building to retain ownership of its Connecting Equipment and cannot be compelled to sell those portions of the Licensee's Connecting Equipment. The purchase price of such portions of Licensee's Connecting Equipment shall be determined on the basis of their underpreciated capital cost at the time of Licenser's written notice to purchase. In connection with any such purchase, the Licenser agrees to negotiate the terms of this License, to allow for continued use of the sold Connecting Equipment, at a price that reflects fair market rates.

1.6 Laws

The Licensee shall immediately advise the Licenser of any environmental deficiencies identified during the installation, operation, maintenance, repair, replacement or removal of the Licensee's Equipment, or any use of the Licensed Area as further specified in Section 3.2 of this Agreement, and, notwithstanding the provisions of Section 3.2 of this Agreement, the Licenser, in its sole discretion, may elect to repair such environmental deficiencies or may, upon sixty (60) days' written notice to the Licensee, terminate this License. **Upon termination, all prepaid occupancy fees shall be adjusted to the date of termination.**
